Requests must be submitted **ONE MONTH prior** to the month the kit is needed.

- The SRC does not supply student copies; black-line masters are located in the Teacher's Edition.
- Due to the ongoing budget constraints, the SRC **does not** supply critters for the Life Science kits. Site office managers can order critters through the Niles Biological vendor found in the VUSD purchase order system. (Niles Biological requires at least two-week notification on all critter orders). Teachers can choose to use the kits without critters.
